PROFESSIONAL EXPERIENCE

digIDZN | Frontend Web Developer

April 2025 – May 2026

- Developed and delivered 15+ websites built from scratch across Shopify and custom frontend projects.
- Developed responsive websites and interactive interfaces using HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS, and Shopify Liquid.
- Converted Figma designs into pixel-perfect, mobile-first interfaces with a strong focus on UI/UX, responsiveness, and clean code.
- Developed React.js-based websites and reusable frontend components for custom web projects.
- Customized Shopify themes, product pages, cart functionality, and dynamic sections using Shopify Liquid.
- Integrated Meta Pixel, Google Analytics 4 (GA4), and Microsoft Clarity tracking codes with websites for analytics, conversion tracking, and user behavior analysis.
- Integrated third-party Shopify apps and REST APIs to implement dynamic website functionality.
- Implemented interactive animations using GSAP, AOS, and ScrollTrigger to enhance user engagement.
- Collaborated with designers, marketers, and developers using Git and GitHub in an Agile workflow.

- Optimized websites for performance, responsiveness, SEO, and Core Web Vitals.
- Deployed and maintained websites using Shopify Hosting and Netlify.

Indian Institute of Computer Science | Web Developer Intern

Jan 2025 – March 2025

- Completed a 3-month Web Development internship, contributing to the development and maintenance of multiple institute websites.
- Managed website content including blogs, site links, landing pages, and other web content updates.
- Developed landing pages for digital advertising campaigns with a focus on responsive design and user experience.
- Updated and maintained existing websites to ensure content accuracy, usability, and responsiveness.
- Provided technical support for website-related issues and frontend development tasks.

Sheryians Coding School | Frontend Developer (Hackathon Finalist)

Sep 2024

- Ranked among the Top 12 teams out of 700+ participants in a national-level hackathon.
- Developed responsive and animated landing pages using HTML, CSS, JavaScript, GSAP, and ScrollTrigger.
- Improved page performance through image optimization and efficient asset loading.
